

East End Community Services - Camp Mariposa Dayton, OH

Created by [East End Community Services](#)

East End is building a prosperous, caring and healthy community that nurtures children toward success. They are providing youth, family and neighborhood development programs to families in inner East Dayton to help break the cycle of multi-generation poverty.

East End merged with the WestCare Foundation, a family of tax-exempt nonprofit organizations that provides a wide spectrum of health and human services, and community development programs in communities that span 19 US states, and three US territories. East End is the only WestCare affiliate in Ohio and this partnership has already brought high quality professional development services and health care benefits to East End staff, along with grant writing assistance that has already added new resources into our community.

East End Community Services is Eluna's Camp Mariposa Dayton, OH partner.
